

SCIENCE AND FAITH

Collision or Cohesion?

AN INVITATION

Science and religion have a long history being pitted against one another in opposition. But is that really the full picture? Are they truly at odds? Are they different realities entirely, or might science and faith be complementary to one another. Join Community Church of the Monterey Peninsula (CCMP) for an open-minded lecture/discussion about the relationship between faith and science.

Science and Faith Mini-series starting soon!

First Thursdays of the month 7:00-8:30PM at CCMP

MAY 4th

(May the Fourth be with you)

June 1st

July 6th

RSVPs helpful but not necessary to attend: 624-8595 or email info@ccmp.org

About Rev. Paul Wrightman – *with a strong background in theology and Scripture, Rev. Wrightman has 19 years' experience teaching Systematic Theology, alongside a good general background in science from his undergraduate studies at Stanford University.*

About CCMP – *Since its founding in 1963 Community Church of the Monterey Peninsula has encouraged a strong tradition of independent-thinking, discussion, and debate. **Wherever you are in your faith journey you are welcome here!***
